

ROTHWELL SCHOOLS INTERIM LEARNING OFFER

YEAR 1

During this time, whilst schools are having to operate in a different way, we are building our capability to educate pupils remotely as and when required.

This remote education, where needed, will be of a high quality and will align as closely as possible with in-school provision and will be integrated into school curriculum planning.

We appreciate that remote education may need to be an essential component in the delivery of the school curriculum for some pupils, alongside classroom teaching, or in the case of a local lockdown.

Rothwell Schools will support pupils to master the curriculum and so make good progress whether they are at home or school.

Whilst we are setting up the remote learning we would like to signpost you to the online learning that you can already access from home on the following websites;

Phonics

<https://wandleenglishhub.org.uk/lettersandsounds> - this website is good for phonics for children in years R to year 3. They can use the resources to help reinforce the phonics they have been learning in class.

You can also find lots of further ideas to support home learning below.

The new homework learning grids from each year group can be found below and the activities explained in the grid are already integrated into your child's learning within school. Your child will be sent home with a Learning Log in which to complete the activities. Please encourage your child to engage and complete these activities from the grid throughout the term as at the end of each topic term there will be a 'Celebration Lesson' in class where children will share with their teacher and the rest of their peers the work in their Learning Logs. This can also be completed with your child if you have to isolate whilst waiting for a test.
